RE: Contract – MTC StreetSaver[®] Software Development, Maintenance & Support Services: DevMecca.com

Background

MTC's pavement management program, StreetSaver[®], is designed to provide local jurisdictions with a set of recommendations, or "best practices", for pavement preservation, in order to help them use their limited local street and road funding in the most cost-effective manner. Currently, all of the 109 Bay Area jurisdictions use StreetSaver[®], in addition to over 250 users nationwide. MTC uses StreetSaver[®] exclusively to report the pavement conditions annually in the State of the System Report for local streets and roads and to project the region's pavement needs that feed into our regional transportation plan.

Evaluation

A Request for Qualification (RFQ) was issued on August 17, 2009 for a two-year term contract (with the option of two 2-year extensions) for software development, maintenance and support services. MTC received one proposal from our current software developer, DevMecca.com.

After careful consideration, MTC staff recommends award of the contract to DevMecca since it met all the minimum requirements in the RFQ and most of the supplemental qualifications. Since 2004, DevMecca has provided software maintenance and support for MTC. MTC staff has consistently received high-quality work products and excellent customer service at a very reasonable cost.

DevMecca will provide ongoing software maintenance and support, future software updates and enhancements including non-pavement asset management and Pavement Condition Index-driven calculation, hosting StreetSaver[®] application online, as well as database migration and conversion from previous versions of StreetSaver[®] and other pavement management software.

Recommendation

We recommend that this Committee authorize the Executive Director or his designated representative to negotiate and enter into a contract with DevMecca.com in an amount not to exceed \$980,000 to provide MTC StreetSaver[®] software development services for a two-year period, as described herein. The amount requested for FY 2009-10 is \$475,000; the remaining amount is subject to approval of the FY 2010-11 budget.

Ann Flemer

REQUEST FOR COMMITTEE APPROVAL
Summary of Consultant Contract

Work Item No.:	1233
Consultant:	DevMecca.com, LLC Salem, Oregon
